Student Organization Spring 2021 Safety Guidelines

WHY ENGAGEMENT MATTERS

- Research shows that engagement is important to the overall success and retention of students.
- Engaging in student organizations is one way to find that community and belonging. Involved students enrich their learning in deeper ways, are offered opportunities to practice the information and skills they are learning in class, find community, have more opportunities for individual growth and identity development, and begin to build relationships and social capital.
- Getting involved and engaging in outside the classroom activities increases student retention, improves student satisfaction with the college experience, strengthens staff-student relationships, improves career development and readiness, improves personal efficacy and self-awareness, facilitates cultural and racial understanding, offers opportunities to grow interpersonal communication and leadership skills, and increases the affinity towards the University of Maryland.

STUDENT PROGRAMMING

The University of Maryland is concerned for the health and safety of the entire University community, and continues to be in compliance with guidelines from the Center for Disease Control and Prevention, as well as those from state and local agencies. Even when these guidelines allow for events or gatherings, great care must be taken to limit and prevent the community transmission of COVID-19. Faculty, staff and student wellness and safety are a priority, and student organizations are key partners in the endeavor to keep our community healthy and safe. The nature of the disease is such that actions taken by an individual affect not only the well-being of that individual, but the well-being of every person with whom that individual has interacted with on our shared campus.

Student organizations have an important role to play in providing opportunities for students to connect and deepen friendships, deepen engagement with the university, as well as to engage in experiential learning. For these reasons the Student Organization Resource Center has put in place the following guidelines for student organizations to help keep our community safe and reduce the opportunities for transmission of COVID-19.

SORC may modify these expectations at any time and will provide notice in the event such modifications are made. Student organizations must keep apprised of changes to the expectations, and abide by them.

Last updated 2021-03-09
Even when State and County guidance allows for events or gatherings, great care must be taken to limit and prevent the community transmission of COVID-19 within our UMD community.

The following are guidelines outlined by the Student Organization Resource Center and the University of Maryland, based on guidance from the University, University System of Maryland, State, Prince George’s County and the Center for Disease Control (CDC).

- **Virtual programming and activities should be the first option before considering in-person events and gatherings.**
  - After February 7, 2021, student organizations considering planning an in-person event or program should consider:
    - Can a program be offered virtually or should it be offered in person?
    - Is the delivery of this program/content so significantly improved by being delivered in-person that we must manage this as an in-person offering?

New Requirements for **ALL** student organization meetings, events, and activities

*Meetings vs. Events*

To help student organizations differentiate between a meeting and an event, for purposes of these guidelines, please use the following definitions:

- **A meeting** is a gathering of organization members with the goal of addressing matters related to the business of the organization, typically occurring on some on-going and predictable schedule, e.g. weekly or monthly basis, and generally does not require additional support beyond a physical space (if in person) and/or technical support (if virtual).

- **An event** is an activity that an organization sponsors that could serve a variety of purposes, e.g. entertainment, educational, celebratory, as it pertains to an audience, usually occurs as a special occasion and not on an on-going basis, and may require additional services or support, e.g. consultation with the Office of Risk Management, Office of Facilities Management, ticketing services, etc.

*Event Registration and Approval*

- Student organization in-person events and meetings must be reviewed and approved by the Student Organization Resource Center (SORC) and/or an Associate Vice President for Student Affairs.
- Student organization advisors will receive notice of a pending event and will be encouraged to work with their group’s planning and execution of the event.
- Student organizations must register all meetings, events, and activities (whether in-person or virtual) through TerpLink

*Last updated 2021-03-09*
Students and/or registered student groups who fail to get approval may be referred to the Office of Student Conduct

**COVID-19 Safety Training**
- STAMP staff will craft and execute training for registered student organization officers and advisors to provide them information about risk management, expectations for maintaining public health, and ways to enlarge impact using new technologies.
  - Student organizations will be ineligible to organize events until the training is completed.

**Attendance Tracking and Contact Tracing**
- Student organizations must track attendance at all in-person or hybrid events and activities, and are encouraged to do so for all virtual meetings, events, or activities.
  - Student organizations are encouraged to track attendance through TerpLink

**Virtual Meetings, Events, Activities**

Virtual programming and activities should be the first option before considering in-person events and gatherings.

Student organizations are expected to create virtual programming as alternatives to in-person events, meetings and programs.

**Technology to Support Virtual Meetings, Events, and Activities**
- Student organizations can receive support from the Student Organization Resource Center (SORC) to brainstorm ways to conduct organizational business and activities online as a way to connect students.
- Student organizations can receive support from STAMP IT on the best technology to use for activities online as a way to connect students.

**On Campus In-person (Indoor/Outdoor Events)**
- As of Monday, February 8, 2021, student organizations may host in-person activities, meetings, or events.
- Students organization in-person activities, meetings, and events are prohibited during the two week period following Spring Break 2021 (March 22, 2021-April 4, 2021). In-person activities, meetings, and events may resume on Monday, April 5, 2021.

**Size/Capacity/Large Events Gatherings**
- As of March 1, 2021, indoor gatherings will be restricted to 10 persons and outdoor gatherings will be limited to 25 persons, at no more than 1 person per 200 square feet in
either case. However, physical distancing and proper mask-wearing are still required regardless of the location and size of a gathering.

- **APPROVAL REQUIRED:** Subject to allowances of the State of Maryland and Prince George’s County
- Existing program and facility policies remain in effect unless otherwise affected by this guidance.
- Events and gatherings will generally be closed to the public (defined as those who are not UMD College Park students, faculty, and staff). For an event to be open to the public, approval from the Vice President of Student Affairs or designee is required.

**Health and Safety**

- All events and gatherings will adhere to UMD Health and Safety Standards per [Guidance for VPs for Increased On-Campus Operations](#).
- All events and gatherings will adhere to the standard of 6-foot physical distancing.
  - Facility managers and identified building safety officers will determine specific space occupancy, in accordance with current State and County regulations and in consultation with the Office of the Fire Marshal.
- All participants, staff, and performers, if permitted, will be required to wear a mask.
  - Student organizations hosting in-person events should have a supply of disposable face coverings to distribute to participants without one at the controlled entrance to the event. Participants who refuse will not be allowed to attend the event.
- Student organizations hosting both outdoor and indoor gatherings and events must make available alcohol-based sanitizers. Costs associated with the event will be borne by the student organization.
- Student organizations hosting in-person events must track attendance at their events by recording name and email or name and UID of each attendee for contact tracing purposes. Student organizations are asked to keep that information for at least one month after the event.
- Student organization leaders are encouraged to consider this [event risk assessment planning matrix](#) when planning events.

**Location of In-Person Meetings and Events**

- All in-person meetings and events must be held in a reservable space
  - INDOOR Reservable spaces include:
    - STAMP
    - Memorial Chapel
    - Riggs Alumni Center
  - OUTDOOR Reservable spaces include:
    - McKeldin Mall

Artificial Turf Fields (aka Xfinity Field)
Chapel Fields
Engineering Field
Fraternity Row Fields
Hornbake Plaza
La Plata Beach
Nyumburu Amphitheater

Classrooms
- General Purpose Classrooms will not be available for reservations by student organizations.
- Faculty/staff advisors should not make reservations in general purpose classrooms on behalf of their student organizations. Reservations made by a UMD staff or faculty member, regardless if an advisor is doing so on behalf of a student organization, are considered a departmental event and no longer a student organization event, and may require different guidance.

Crowd Management
- It is the responsibility of student organizations to monitor attendance at their event to ensure the number of attendees does not exceed permitted maximum occupancy and required physical distancing is maintained. It is recommended that student organizations hosting in-person events appoint someone who’s sole responsibility is to monitor attendance and help manage the crowd.
- Facility managers (staff who manage the space) must designate separate entrances and exits when feasible. Student organizations hosting events must ensure participant compliance. Whenever possible there should be a single entrance and a single exit. All exits must be available for emergency use and must be indicated with signage approved by the Office of the Fire Marshal.
- Lines to enter an event must comply with six-foot physical distancing (or current guidance) and be marked accordingly on the ground.
- Facility managers will hold the student organization accountable for compliance and will work with student organizations to comply with guidelines. Facility managers are authorized to close an event when procedures are not followed.

Staffing
- There must be at least one student organization member at each entrance and exit to an event to control flow of participants and ensure adherence to safety protocols.
- All student organization members must wear face coverings.
- Student organizations are responsible for providing appropriate supplies for all student organization members and/or volunteers working the event, such as hand sanitizer that contains at least 60% alcohol, tissues, trash baskets, disposable face coverings, and cleaners and disinfectants.

Last updated 2021-03-09
• Student organizations should be prepared for absences. This may require scheduling additional staff/volunteers.

Catering/Food
• Student organizations are not allowed to distribute or sell food (e.g. bake sales, selling franchise food items, etc.)
• Food service will be limited in events to reduce risk to public health. Food may be secured from Food Court Venues and/or Dining Services and should be provided in boxed and/or a packaged format to reduce risk of exposure.
  ○ Buffets are not allowed.
• Outside caterers are not permitted.

Singing and Mouth Instruments
• As of February 10, 2021, events may not include signing, vocal performance, or use of mouth instruments.

Fundraisers
• Student organizations’ fundraisers distributing food are not permitted (e.g. bake sales, selling franchise food items)
• Fundraisers should leverage electronic money exchange (e.g. Venmo) instead of collecting physical currency

Contractors/Vendors
• All contractors, vendors, service providers (together, “Contractors”), Contractor personnel, subcontractors, and subcontractor personnel working on the University of Maryland College Park (“UMD”) campus and in UMD off-campus buildings and other facilities (together, “Campus”) are expected to comply with the requirements contained in this document during the COVID-19 pandemic.

Ticketing
• Per CDC guidelines, if there are prepaid sales for the event (e.g. advanced ticketing), student organizations should develop clear refund guidelines and ensure that it is understood when payment is made.
• All ticket sales or registrations must be in advance. No ticket sales or registrations will be conducted on the site of the event or gathering.
• Where possible, events that could benefit from ticketing will use University Ticketing to allow for communication with guests prior to the event, support of contact tracing, and to insure capacity. The expense of ticketing will be borne by the group.

Last updated 2021-03-09
Off-Campus Events

● No off-campus events or programs are permitted. Per the recent university notification indicating that spring guidelines around travel continue to be in place, no university funds can be used for travel. This also best ensures that safe event practices are in place at only venues where university recommendations can be consistently enforced.
  ○ This includes fundraisers at food venues that are off-campus.

Additional Considerations

Giveaways/Flyering/Distribution of Items

● Student organizations are strongly discouraged from distributing print materials and/or physical items to reduce spread of the COVID-19 virus.

Campus Advertising and Chalking Policies

● Every semester, a new set of student leaders tries to market their programs and organizations in unique ways. We wanted to reinforce the need to follow a few prescriptive guidelines as you reach out to the campus. Please review the complete advertising policy.
